Your plan amendment concerning the increase of total disturbed acres to 26 acres for your gypsum mine in Emery County is approved. Since a bond in the amount of \$50,000.00 is in place and it still is sufficient to meet the requirements for the increased acreage, no increase in bonding is required at this time. Any disturbance outside the area included in the approved plan will require a plan amendment prior to the disturbance.

Approval of this plan amendment will not now nor in the future serve as a determination of the ownership or validity of any mining claim to which it may relate. You shall comply with all Federal, state, and local government rules and regulations.

You have the right to appeal to the Utah State Director, Bureau of Land Management, in accordance with 43 CFR 3809.4. If you exercise this right, your appeal, accompanied by a statement of reasons and any arguments you wish to present which would justify reversal or modification of the decision, must be filed in writing within 30 days from the date of this decision. This decision will remain in effect during the appeal unless a written request for a stay is granted.
